Engineer/Architect Work Summary

- I. Construction Drawings - Shall be prepared with the primary objective of clearly and concisely describing the work to be done in order to achieve the proposed design. Legally these drawings, along with the specifications, stipulate the specific materials and services to be supplied for the contract price. Thus, these documents should accurately define the scope of the project and all standards of construction in terminology which laypersons (who approve projects) and contractors or craftsmen (who bid and build them) can readily understand. Consistent terminology would be used in relating work on drawings to specifications and cost estimates as well as in other bid documents such as agreements and advertisements.
 - A. Basic Site and Design Data - Must be provided of all information or investigation determined to be relevant to the project design and construction for the protection of the health and safety of the users.
 - B. Drawings - Must provide sufficient data for contractor to locate work to be accomplished; establish existing grades and construct finished grades; identify and protect areas not included in contract work and other information necessary to coordinate plans with work to be constructed and/or other accompanying documents and information necessary to comply with other agency reviews.

Drawings must incorporate sufficient data in plan, elevation, section materials and construction details for clarity to bidders and/or constructors and should present as completely as possible a graphic description of the project including details of dimension, materials and methods of construction in as legible a manner as possible. Information on drawings must be clearly coordinated with the specifications.

Drawings must show existing and proposed utilities and services such as water, sewage, storm water, electric, and gas including locations, sizes, depths, material, condition, rights-of-way or easements with conditions of same, as may be agreed with applicable officials.
 - C. Professional Registration Seal (PA Registration) - Of the designing landscape architect, architect, or engineer shall appear on each drawing sheet for all contract work.
- II. Technical Specifications - Shall be prepared to establish detailed qualitative requirements for materials and workmanship. Specifications set requirements for strength, size and other physical qualifications, standards and methods of workmanship for construction or manufacture of products used, and guarantees of components and materials. Nomenclature in specifications should be consistent with drawings and cost estimate.

Guideline specifications have been prepared by the various design and planning professional societies and are flexible enough to be adapted to most projects.

- A. Specifications govern, normally, over drawing information in case of conflict. This point should be clearly stated in all construction contracts and the specification itself.
- B. Separate contract specifications for electrical work, plumbing work and mechanical work (heating or air conditioning) are to be prepared from those prepared for the general contract construction work for projects to be publicly bid. Landscape contract work may be separate or incorporated with the general contract. (See Section V C)
- C. Professional registration seals (PA Registration) of the designing landscape architect, architect or engineer shall appear on cover page of each specification for the separate contracts.

III. Detailed Cost Estimate - A cost estimate, itemized for each construction item. It shall be current and take into account timing and possible cost increases for proposed construction. Terminology and contents of cost estimate shall correspond with drawings and specifications. Lump sum contingency amounts are not eligible cost items.

Designer shall include statement of individual costs for professional services such as master site planning, preliminary or Grant Application site design, surveys, engineering services, construction document design and preparation, and construction supervision.

IV. Bidding Documents must be prepared by the Designer. It is the ultimate responsibility of the architect or engineer, however, to make certain that the plans and specifications meet local government ordinances and laws of the Commonwealth and the federal government.

Bidding documents for public contract work usually consist of the following:

- A. Advertisement or Invitation to Bid
- B. Instructions to Bidders
- C. Qualifications of Bidder's Statement
- D. Summary of Work to be Performed
- E. Bid Proposal Form - All Alternate and/or Unit Price Bid Items must be clearly stated and delineated on the Bid Proposal Form. In certain situations, ineligible work and costs may need to be stated on the Bid Proposal Form for accounting and auditing purposes.

- F. Contract Agreement - A written agreement between the successful bidder and the awarding party must be fully executed prior to starting construction. In all cases, all Contract Agreements shall clearly state the scope of work, contract amount, method of payment, starting and completion times, equal opportunity clauses, and any other special conditions unique to the completion of the contract or adherence to applicable State and Federal laws and regulations.
 - G. Bid Bonds (or Certified Checks, Banks Cashiers Check, or Treasurer's Check) are to be provided with the bid proposal to secure the bidders' financial responsibility.
 - H. The Public Works Contractor's Bond Law of 1967 requires that all construction contracts in excess of \$4,000 be accompanied by a Performance Bond and a Labor and Material Payment Bond; unless current municipal codes are more restrictive. Each bond must be in the amount of 100% of the contract award price. These bonds must be secured from an agency or firm approved by the Commonwealth's Department of Insurance to do business in Pennsylvania. No exceptions or substitutions of collateral are permitted for these bonds.
 - I. A Maintenance Bond to protect the municipality from faulty or defective work by the contractor is also required. The Bond should cover the period for two years following completion of the project and should be in an amount of at least 10% of the contract price.
 - J. Insurance Coverage shall be required of the contractor to include Workmen's Compensation, general liability, public liability and property damage, automobile liability, excess liability, sub-contractor's insurance, special hazards insurance, and other appropriate coverages applicable to the construction.
- V. Applicable Laws and Regulations - The following Federal and State laws and regulations impact on the preparation of the Part II Application and govern the advertising and awarding of contracts and construction of the project. Compliance with these laws and regulations is mandatory for all projects.
- A. Wage Rates - Pennsylvania prevailing wage rates are required if the total project cost is estimated to be in excess of twenty-five thousand dollars (\$25,000). If the applicant will be using federal funds as part of their local match, and the contract (s) or subcontract (s) exceed two thousand dollars (\$2,000), compliance with federal davis-bacon wage rates is required.
 - B. Nondiscrimination in Employment/Contract Compliance Regulations - All construction contracts and/or subcontracts awarded for the project must provide for compliance and adherence to applicable Contract Compliance Regulations for Nondiscrimination and Equal Employment Opportunity (see Part II - Terms and Conditions).

Where state and/or federal funds are used, all construction contracts and/or subcontracts must contain the Pennsylvania Human Relations Commission's Nondiscrimination Clause. This Clause shall be incorporated into the specifications for each contract and/or subcontract to be awarded.

C. The Separation Act of 1913 (Act 104), as amended, mandates that contract documents for electrical work, plumbing work, heating and ventilating work shall be prepared in separated drawings and separate specifications from those prepared for the general construction and landscape work for all projects when the total cost of construction exceeds \$10,000. Separate bids shall be taken and contracts awarded separately in the same categories as described for preparation of documents. The Borough Code exempts Boroughs from this separation requirement.

D. Federal Occupational Safety & Health Act of 1970 (O.S.H.A.) includes regulations to assure safe and healthy work conditions. Compliance includes specific records and reporting. Consultant shall incorporate in contract specifications the contractor's specific responsibility to comply with regulations of Act and to perform reporting and recording requirements. O.S.H.A. applies to all construction projects, however funded, and supercedes and local or state regulations related to safe and healthy work conditions.

E. Pennsylvania Act 287 (December 10, 1974) requires, among other things that:

- (1) Each designer preparing a drawing requiring excavation or demolition in a site within a political subdivision to show upon the drawing the approximate location and type of each underground utility line or pipe.
- (2) The name of the utility company and their office address and telephone number be designated on the drawing.
- (3) Each contractor who intends to perform excavation or demolition work in a site within a political subdivision to ascertain the location and type of utility lines and pipes at each site and to notify the utility company (s) three working days in advance of performing the excavation or demolition.

VI. Addendums/Bulletins shall be issued to document and incorporate changes to the construction drawings and specifications during the advertising and bidding period. The Addendum or project Bulletin shall be issued to all bidding contractors so that each will receive the same information. Addendums/Bulletins become a legal part of the bidding documents. Signed return copies shall accompany all bid proposals. Oral information shall not be given to bidders on matters of such changes.

PART II - TERMS AND CONDITIONS

1. Termination of Contract for Cause. If, through any cause, the CONTRACTOR shall fail to fulfill in timely and proper manner his obligations under this Contract, or if the CONTRACTOR shall violate any of the covenants, agreements, or stipulations of this Contract, the OWNER shall thereupon have the right to terminate this Contract by giving written notice to the CONTRACTOR of such termination and specifying the effective date thereof, at least five days before the effective date of such termination. Written notice of any such assignment or transfer shall be furnished promptly to the OWNER.
6. Reports and Information. The CONTRACTOR, at such times and in such forms as the OWNER may require, shall furnish the OWNER such periodic reports as it may request pertaining to the work or services undertaken pursuant to this Contract, the costs and obligations incurred or to be incurred in connection therewith, and any other matters covered by this Contract.
7. Records and Audits. The CONTRACTOR shall maintain accounts and records, including personnel, property, and financial records, adequate to identify and account for all costs pertaining to the Contract and such other records as may be deemed necessary by the OWNER to assure proper accounting for all project funds. These records will be made available for audit purposes to the OWNER, the Department of Community And Economic Development, or any of their duly authorized representatives, and will be retained for three years after the expiration of this Contract unless permission to destroy them is granted by the OWNER.
8. Confidentiality. All of the reports, information, data, etc., prepared or assembled by the CONTRACTOR under this Contract are confidential and the CONTRACTOR agrees that they shall not be made available to any individual or organization without the prior written approval of the OWNER.

10. Compliance with Local Laws. The CONTRACTOR, shall give all notices and comply with all laws, ordinances, codes, rules, regulations, and lawful orders of any public OWNER, bearing upon the performance of the project, and shall commit no trespass on any public or private property in

performing any of the work embraced by this Contract. The CONTRACTOR must pay, at the CONTRACTOR'S own expense, any and all costs associated with the above stated compliance.

11. Equal Employment Opportunity. During the performance of this Contract, the CONTRACTOR agrees as follows:
 - a. The CONTRACTOR will not discriminate against any employee or applicant for employment because of race, religion, sex, color, national origin, handicap, or familial status. The CONTRACTOR will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, religion, sex, color, national origin, handicap, or familial status. Such action shall include, but not be limited to, the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship.  - c. The CONTRACTOR will send to each labor union or representative of workers with which he has a collective bargaining agreement or other Contract or understanding, a notice to be provided advising the said labor union or worker's representatives of the CONTRACTOR'S commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
 - d. The CONTRACTOR will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations and relevant orders of the Secretary of Labor.

The CONTRACTOR will take such action with respect to any subcontract or purchase order as the Department of Community And Economic Development may direct as a means of enforcing such provisions including sanctions for noncompliance: Provided, however, that in the event the CONTRACTOR becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the Department of Community And Economic Development, the CONTRACTOR may request the United States to enter into such litigation to protect the interests of the United States.

12. Nondiscrimination Compliance.

- a. It shall be no defense to a finding of noncompliance with this nondiscrimination clause that the CONTRACTOR had delegated some of its employment practices to any union, training program, or other source of recruitment which prevents it from meeting its obligations. However, if the evidence indicates that the CONTRACTOR was not on notice of the third-party discrimination or made a good faith effort to correct it, such factor shall be considered in mitigation in determining appropriate sanctions.
- b. Where the practices of a union or any training program or other source of recruitment will result in the exclusion of minority group persons, so that the CONTRACTOR will be unable to meet its obligations under this nondiscrimination clause, the CONTRACTOR shall then employ and fill vacancies through other nondiscriminatory employment procedures.
- c. The CONTRACTOR shall comply with all state and federal laws prohibiting discrimination in hiring or employment opportunities. In the event of the CONTRACTOR'S noncompliance with the

The CONTRACTOR will not subcontract with any subcontractor where it has notice of knowledge that the latter has been found in violation of regulations under 24 CFR Part 135 and will not let any subcontract unless the subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.
 - e. Compliance with the provisions of Section 3, the regulations set forth in 24 CFR Part 135, shall be a condition of the federal financial assistance provided to the project, binding upon the applicant or recipient for such assistance, its successors and assigns. Failure to fulfill these requirements shall subject the applicant or recipient, its contractors and subcontractors, its successors and assigns to those sanctions specified by the grant or loan agreement or contract through which federal assistance is provided, and to such sanctions as are specified by 24 CFR Part 135.
