Dear Mr. Sorvino:

We recently received a K-1 from the above named entity for the 2006 tax year. In the November, 2007 election Lackawanna County elected new majority Commissioners. The new Commissioners have asked me to correspond with you and request some information regarding the County's investment in The Trouble with Cali, LLC.

We would be interested in receiving a full accounting of the use of the monies we invested, a report on the status of the project, and an estimate of when we might begin to receive a return on our investment.

Please respond directly to me with the requested information, so that I might compose a report for the new majority Commissioners.

Thank you for your cooperation in this matter.

Very truly yours,
