

CORONAVIRUS DISEASE 2019 (COVID-19)

[CDC.gov/COVID-19](https://www.cdc.gov/COVID-19)

June 7, 2021

This message includes updates on the [COVID-19](https://www.cdc.gov/COVID-19) response from CDC. The COVID-19 Outbreak is a rapidly evolving situation and information will be updated as it becomes available.

COVID-19 Vaccines for Children and Teens

CDC recommends COVID-19 vaccination for everyone ages 12 and older. Learn more about what you and your child or teen can do [when you have been fully vaccinated](#). Children 12 and older are able to get the [Pfizer-BioNTech COVID-19 Vaccine](#). Search [vaccines.gov](https://www.vaccines.gov), text your zip code to 438829, or call 1-800-232-0233 to find locations near you.

More Information

Colleges, Universities and Higher Learning

Institutions of higher education can help slow the spread of COVID-19 by providing information about and offering COVID-19 vaccination, promoting vaccine trust and confidence, and making getting vaccinated easy and convenient. CDC has updated guidance for IHEs about COVID-19 vaccination and prevention strategies for IHEs, whether everyone is fully vaccinated or not.

Myths and Facts About COVID-19 Vaccines

COVID-19 vaccines are safe and effective. Accurate vaccine information is critical and can help stop common myths and rumors. It can be difficult to know which sources of information you can trust. Before considering vaccine information on the Internet, check that the information comes from a credible source and is updated on a regular basis.

COVID Data Tracker Weekly Review

Young people are less likely to be hospitalized for COVID-19 than adults, but cases of severe disease have been documented in adolescents ages 12-17. Recent increases in COVID-19-associated hospitalization rates and the potential for severe disease in this age group reinforce the need for vaccination and other prevention strategies. Read more about adolescent COVID-19 trends and considerations for summer activities in the [COVID Data Tracker Weekly Review](#).
