

FOR IMMEDIATE RELEASE

June 2, 2021

Department of Health: Over 10.6 Million Vaccinations to Date, 58.5% of Entire Population Received First Dose, 54.4% of Pennsylvanians Age 18 and Older Fully Vaccinated, PA Ranks 9th Among 50 States for First Dose Vaccinations

580 New Cases, 989 Patients Hospitalized and 248 Patients in the Intensive Care Unit

Harrisburg, PA - The Pennsylvania Department of Health today confirmed as of 12:00 a.m., June 2, there were 580 additional positive cases of COVID-19, bringing the statewide total to 1,203,443.

There are 989 individuals hospitalized with COVID-19. Of that number, 248 patients are in the intensive care unit with COVID-19. Most of the patients hospitalized are ages 65 or older, and most of the deaths have occurred in patients 65 or older. More data is available [here](#).

The trend in the 14-day moving average number of hospitalized patients per continues to drop, after peaking at 2,661 patients which is slightly below what it was at the height of the spring 2020 peak of 2,751 patients on May 3, 2020. The full 14-day moving average since the start of the pandemic can be found [here](#).

Statewide percent positivity for the week of May 21 – May 27 stood at 3.8%.

The most accurate [daily data is available on the website](#), with [archived data also available](#).

As of 11:59 p.m. Tuesday, June 1, there were 45 new deaths identified by the Pennsylvania death registry, reported for a total of 27,259 deaths attributed to COVID-19. County-specific information and a statewide map are available on the [COVID-19 Data Dashboard](#).

COVID-19 Vaccine Distribution

Pennsylvania hospitals began receiving shipments of the Pfizer-BioNTech COVID-19 vaccine the week of Dec. 14 and Moderna COVID-19 vaccine the week of Dec. 21. The Janssen (Johnson & Johnson) COVID-19 vaccine was first allocated to Pennsylvania the week of March 1. On [Friday, April 23](#), the CDC and FDA notified all COVID-19 vaccine providers that the pause in administering doses of the Johnson & Johnson (Janssen) vaccine has been lifted. Following the announcement, Pennsylvania resumed Janssen vaccinations. Vaccination numbers for Pennsylvania do not include Philadelphia, which is its own jurisdiction, or federal facilities, which are working directly with the federal government.

Vaccine highlights

Federal data representing all 67 counties:

- According to the CDC, as of Wednesday morning, June 2, Pennsylvania has administered first doses of vaccine to 58.5% of its entire population, and the state ranks 9th among all 50 states for first doses administered by percentage of population.
- According to the CDC, as of Wednesday morning, June 2, 54.4% of Pennsylvanians age 18 and older are fully vaccinated while 71.2% have received their first dose.
- According to the CDC, as of Wednesday morning, June 2, Pennsylvania ranks 5th among all 50 states for total doses administered.

Statewide data representing the 66 counties within the Department of Health's vaccine jurisdiction:

- Vaccine providers have administered 10,619,481 total vaccine doses as of Wednesday, June 2.
- 4,722,449 people are fully vaccinated; with a seven-day moving average of more than 40,800 people per day receiving vaccinations.
- 1,568,368 people are partially vaccinated, meaning they have received one dose of a two-dose vaccine.
- 6,290,817 people have received at least their first dose.

- This week, a total of 11,346,680 doses will have been allocated through June 5:
 - 297,160 first/single doses will have been allocated this week.
 - 299,960 second doses will have been allocated this week.

- To date, we have administered 10,619,481 doses total through June 1:
 - First/single doses: 6,290,817 administered
 - Second doses: 4,328,664 administered

Fully vaccinated people may choose not to wear a mask indoors or outdoors unless the business or organization requires it, following guidance from the Centers for Disease Control and Prevention (CDC).

There are 162,198 individuals who have a positive viral antigen test and are considered probable cases and 638 individuals who have a positive serology test and either COVID-19 symptoms or a high-risk exposure.

There are 4,610,343 individuals who have tested negative to date.

In licensed nursing and personal care homes, there are 71,735 resident cases of COVID-19, and 15,414 cases among employees, for a total of 87,149 at 1,592 distinct facilities in all 67 counties. Out of total deaths reported to PA-NEDSS, 13,289 have occurred in residents from nursing or personal care facilities. A county breakdown can be found [here](#). Note that the

number of deaths reported to NEDSS is not exactly the same as the COVID-19 related deaths reported by the death registry. The number of deaths among nursing and personal care home residents and employees is taken from the PA-NEDSS death data, as this information is not available in the death registry data.

Approximately 28,769 of our total cases are among health care workers.

Statewide – The Wolf Administration has since noon, June 1:

- Administration [provided EWMD update](#).

The Department of Health is working to ensure the vaccine is provided in a way that is ethical, equitable and efficient to all Pennsylvanians:

- All Pennsylvanians age 12 and older are eligible to schedule a COVID-19 vaccine. Use [Vaccine Finder](#) to find a COVID-19 vaccine provider near you.
- A [commonwealth COVID-19 vaccination guide](#) explains the current process for getting one. Pennsylvanians with questions about the vaccination process can call the Department of Health hotline at 1-877-724-3258.
- All of the locations that received vaccine and how much they have received can be found on the [COVID-19 Vaccine Distribution webpage](#).
- [Vaccine dashboard data](#) can also be found on the website to find more information on the doses administered and showcase demographic information.
- The [Unite Against COVID Weekly Update](#) is a round-up of news you can use and answers to your most pressing vaccine questions – delivered directly to your inbox every week.
- Frequently asked questions can be found [here](#).

The Wolf Administration stresses the role Pennsylvanians play in helping to reduce the spread of COVID-19:

- Get vaccinated with one of the three safe and effective vaccines available to provide the best layer of protection.
- Wash your hands with soap and water for at least 20 seconds or use hand sanitizer if soap and water are not available.
- Cover any coughs or sneezes with your elbow, not your hands.
- Clean surfaces frequently.
- Stay home to avoid spreading COVID-19, especially if you are unwell.
- Download the COVID Alert PA app and make your phone part of the fight. The free app can be found in the [Google Play Store](#) and the [Apple App Store](#) by searching for “covid alert pa”.
