

# Lackawanna County

## **Responses to Questions on Bid for Concrete Repair Work on Central Scranton Expressway**

Bids must be submitted in a sealed envelope. Properly label the outside of the sealed envelope with the Contractor Name and Project Name.

### **Is Traffic Control Required as Part of the Contract?**

Yes. The Contractor will be responsible for implementing Traffic Control procedures consistent with PennDOT Pub. 213. The Contractor will need to submit the intended Pennsylvania Typical Application (PATA) Figures to Lackawanna County for approval prior to construction.

### **Are there restrictions on when work may be conducted?**

There are no daytime work restrictions and no expectation of night work for this project

### **Who is responsible for performing Traffic Control notifications to relevant stakeholder?**

The Contractor will be responsible for performing Traffic Control notifications to relevant stake-holders. Lackawanna County will provide a notification list to the successful bidder.

### **Will a staging area be provided?**

A staging area will be provided by Lackawanna County adjacent to the project site.

### **Are prevailing wages required for this project?**

Prevailing wage rates are not required for this project.
